Techniseal®

Techniseal®

Pioneer in innovation for over 40 years.

Techniseal® brings over 40 years of innovation and industry expertise to provide hardscape and landscape professionals with best-in-class solutions for the installation and maintenance of exterior surfaces. Designers and installers everywhere trust the effectiveness and durability of Techniseal products for residential and commercial projects.

Total Hardscape Solution

Installers everywhere trust the effectiveness and durability of Techniseal products to keep their hardscape as beautiful as they envisioned.

JOINTING PRODUCTS

GO FOR THE ORIGINAL BRAND!

After developing the first polymeric sand for paver joints in 1998, Techniseal® continued to develop increasingly efficient products for the installation of pavers, natural stones, and porcelain tiles. Amongst these, SMARTSAND® NextGel™, HP NextGel™ and NextGel™ PORCELAIN, three polymeric sands benefiting from the innovative NextGel™ technology, NOCO™, a "No Compaction" jointing solution, and STORM™, a multi-weather permeable jointing compound.

Often imitated, never duplicated, our industry-leading installation products are still the most reliable jointing technologies in the business.

THE SMART CHOICE FOR YOUR EVERYDAY INSTALLATIONS

Manufactured with the NextGel™ technology, SMARTSAND® NextGel™ is a cost-effective alternative to HP NextGel™, when high-performance sand is not required. Its "quick activation" formula makes it ideal for everyday installations.

Ideal for residential projects

Designed for optimal jointing of interlocking pavers

Ideal for joints from 1/16" - 1/2"
with intersecting spaces up to 1"

For pedestrian and low-traffic areas such as driveways, walkways, patios, etc.

2 main colors:
Grey and Tan (colors may vary by region)

THE HIGH-PERFORMANCE JOINTING SAND VALUED BY TOP INSTALLERS

HP NextGel™ is the only true high-performance jointing sand on the market. Often imitated, the superior HP formula remains unsurpassed, both in terms of performance and ease of installation. Avoid pale imitations, always go for the original!

For residential, commercial, industrial and public projects where mechanical compaction is possible and/or mandatory

Ideal for concrete, wet-cast, textured or clay pavers (only if mechanical compaction is possible)

For false joints

Ideal for joints from 1/16" - 1"
with intersecting spaces up to 2"

For high-humidity areas, with heavy or no slope and high-traffic areas

4 main colors:
Black, Grey, Ivory and Tan (colors vary by region)

THE FIRST POLYMERIC JOINTING PRODUCT SPECIFICALLY DEVELOPED FOR NATURAL STONE

NOCO™ is a "No Compaction" polymeric joint specially developed for the installation of flagstones and other paving materials for which mechanical compaction is not possible or difficult. NOCO™ can be used on concrete overlay or cement-sand base bedding. It is a clean, easy and fast alternative to mortar and stone dust jointing.

For residential, commercial, industrial and public projects where mechanical compaction is either not possible or traditionally not used

Ideal for flagstone, concrete and wet-cast pavers such as imitation CobbleStone, highly textured surfaces, large slabs
(where joints are 1/4" or larger)

For false joints

Ideal for joints from 1/4" - 2"
with intersecting spaces up to 4"

The true alternative to mortar, stone dust and polymeric stone dust

2 main colors:
Tan and Grey (colors may vary by region)

A FASTER & CLEANER SOLUTION FOR GROUTING PORCELAIN PAVERS

Techniseal® NextGel™ PORCELAIN Paver Jointing Sand is specifically designed as an innovative grout replacement for the jointing of porcelain pavers. Unlike traditional cement-based grout, it is a faster and cleaner solution to grouting porcelain pavers. NextGel™ PORCELAIN is a state-of-the-art mix of graded sand and binder that does not require mixing, is applied dry, compacted, watered and hardens after drying. It superior formulation is suitable for all-climate regions and offers color-consistent, efflorescence-free joints.

For residential, commercial, industrial and public projects where mechanical compaction is possible and/or mandatory

Ideal for porcelain pavers, calibrated natural stone such as granite, marble and travertine pavers

No mixing required, fast and easy

For joints from 1/16" to 1/2"

A faster & cleaner solution for grouting porcelain pavers

Available colors: Beige Agate, Black Onyx, Grey Moonstone and White Pearl

A JOINTING COMPOUND THAT WORKS UNDER WET OR DRY WEATHER CONDITIONS

Don't let rain showers slow you down with STORM™, a new-generation permeable jointing compound that works in a wide range of weather conditions. Perfect for residential projects.

For installations carried out on draining base, with NextBase™, cement/sand bedding. A porous draining base is required for proper installation

Ideal for natural stone, concrete pavers, wet-cast pavers, clay pavers, large slabs and outdoor porcelain

Save unused material for the next job site!

Ideal for joints from 1/8" - 2" with intersecting spaces up to 4"

For walkways, pool decks, patios and light-duty residential driveways (up to 3 tons loading)

Available colors: Black, Granite, Ivory and Tan

PAVER CARE SYSTEM
THE TECHNISEAL ADVANTAGE

THE ULTIMATE PROTECTION SYSTEM

When sealing new pavers for the first time, it is essential to clean the surface in its entirety to prevent the formation of whitish efflorescence stains that could remain trapped under the sealer's protective film.

Older pavers are oftentimes stained with dirt, motor oil, grease, rust, and other organic residues. That is why it is of utmost importance to clean these before applying any surface protector. Sealing dirty pavers will never give the intended results and might even compromise the longevity of the sealer.

Whether it's for the seasonal cleaning of pavers or the pre-seal preparation of a surface, Techniseal offers an extensive line of stain removers and specialized cleaners for consistent high-end results.

FOR BEST RESULTS FOLLOW TECHNISEAL'S 3 STEP SYSTEM

Prepare Clean Protect

Techniseal's thorough 3-step treatment system produces the best results:

PREPARE
the surface by removing any existing stains to avoid trapping them under a protective sealer or limiting its effectiveness.

CLEAN
the entire surface to open up pores in the pavers and achieve deeper penetration, better adhesion and added durability of a protective sealant.

PROTECT
the entire surface by applying a sealer. For best results, we recommend application by a professional.

STAIN REMOVERS & CLEANERS

PROFESSIONAL-GRADE OIL & GREASE REMOVER

- Dislodges deeply set petroleum-based products, motor and hydraulic oil
- Dries into a powder for easy cleanup
- Ideal for bare surfaces and older, stubborn stains

1 qt. 60300025

ORGANIC STAIN REMOVER

- Effectively removes moss, mildew, dead leaves, wine, blood and non-greasy food stains
- Requires minimum scrubbing

25 oz 60100007

DIRT & GREASE CLEANER

- Removes motor oil and grease (BBQ)
- Dissolves, dislodges and encapsulates grease
- Ideal for sealed surfaces and fresh stains

1 qt. 60101030

RUST REMOVER

- Removes stains caused by steel, rusted metal objects and fertilizers
- For bare or previously sealed surfaces
- Will not discolour pavers; does not contain muriatic acid

1 qt. 60101956

PAINT, TAR AND RUBBER REMOVER

- Dissolves paint, tar or bitumen, rubber and chewing gum
- Water-rinsable

1 qt. 60100780

PAVER RESTORER

- Removes haze created by some polymeric sands
- Removes stains generated by pavers and slabs cuts

1 gal. 60301605
5 gal. 60201005

PAVER PREP EFFLORESCENCE CLEANER

- Dislodges efflorescence and ground-in dirt
- Prepares pavers before the sealant application
- Brightens up the colour of pavers

1 gal. 60301603
5 gal. 60301602

HD PAVER PREP EFFLORESCENCE CLEANER

- Dislodges efflorescence and ground-in dirt
- Prepares pavers before the sealant application
- Brightens up the colour of pavers

1 gal. 60105008
5 gal. 60105009

SLIT-FOAM ROLLER

- Slit to apply solvent-based Protectors evenly
- Remains spongy to absorb any extra sealant
- Solvent resistant
- Barricade tape included

70971145

ECO-STRIPPER

- Removes most stains, sealants and coatings without affecting the surface
- Eco-friendly; does not damage vegetation or substrate

5 gal. 60201004

Please contact your Techniseal® dealer for product availability.

SLURRY REMOVER

- Removes cement slurry and mortar jointing haze
- For bare surfaces, concrete or clay pavers and slabs

1 gal. 60101231
5 gal. 60200413

Please contact your Techniseal® dealer for product availability.

Please be aware that some products may be subject to local, regional, and/or federal legislation and may thereby not be available in some regions.

NATURAL LOOK (iN)

MATTE FINISH PAVER PROTECTOR PENETRATING SEALER

- Preserves the natural look
- Ideal for slip-prone surfaces
- Stain guard - repels contaminants

1 gal.	60305100
5 gal.	60304120

NATURAL LOOK (NS)

EGGSHELL FINISH PAVER PROTECTOR FILM-FORMING, ALL-IN-ONE SEALER & JOINT STABILIZER

- Preserves the natural look
- Stabilizes sand or aggregate joints
- Stain guard

1 gal.	60301881
5 gal.	60101582

SATIN LOOK (JS)

SATIN FINISH PAVER PROTECTOR FILM-FORMING, ALL-IN-ONE SEALER & JOINT STABILIZER

- Enhances the look of pavers
- Stabilizes sand or aggregate joints
- Stain guard

1 gal.	60301707
5 gal.	60101975

COLOR BOOST (CB+)

MATTE FINISH PAVER PROTECTOR PENETRATING SEALER

- Color enhancement
- Ideal for slip-prone surfaces
- Stain guard - repels contaminants

1 gal.	60301612
5 gal.	60301611

WET LOOK (JSW)

GLOSS FINISH PAVER PROTECTOR FILM-FORMING, ALL-IN-ONE SEALER & JOINT STABILIZER

- Enhances the color of pavers
- Stabilizes sand or aggregate joints
- Stain guard

1 gal.	60301801
5 gal.	60301731

SUREFOOT

ANTI-SLIP GRIT FOR WATER-BASED PROTECTORS

- Mixes easily with Protector without changing its appearance
- Compatible with water-based film-forming protectors (NS, JS, JSW)

4 oz.	60102092

WET LOOK (WL4)

HIGH-SOLID GLOSS FINISH
PAVER PROTECTOR
FILM-FORMING SEALER

- Enhances the color of pavers
- Forms a protective film
- Stain guard

WL4
1 gal. 60301534
5 gal. 60301535

WLWR
1 gal. 60301302
5 gal. 60301303

WET LOOK (WL-87)

SEMI-GLOSS FINISH
JOINT STABILIZING SEALER

- Seals and protects, enhances color, stabilizes sand or aggregate joints
- Resists unexpected rain after 80 minutes
- Breathable, rapid installation sealer

1 gal. 60300365
5 gal. 60300422

Only available in CA

WET LOOK (WL-87 GREEN)

SEMI-GLOSS FINISH
JOINT STABILIZING SEALER

- Seals and protects, enhances color, stabilizes sand or aggregate joints
- Resists unexpected rain after 80 minutes
- Breathable, rapid installation sealer
- Complies with California's strict air quality regulations (including South Coast Air Quality Management District)

1 gal. 142000102
5 gal. 142000101

SUREFOOT

ANTI-SLIP GRIT FOR
SOLVENT-BASED PROTECTORS

- Mixes easily with Protector without changing its appearance
- Compatible with solvent-based film-forming protectors (WL-87, WL-87 Green, WL4)

5.6 oz. 60102015

Ideal for horizontal and vertical, brick & concrete surfaces

NATURAL LOOK (WR7)

MATTE FINISH WATERPROOFING
SEALANT FOR BRICK & CONCRETE
PENETRATING SEALER

- Preserves the natural look of concrete
- Prevents crumbling and spalling caused by salt and freezing cycles
- Ideal for brick, concrete or stone
- Helps prevent efflorescence

1 gal. 60303570
5 gal. 60303580

MULTI-SURFACE PROTECTORS

Whether you wish to preserve the natural look of installations or enhance the original appearance of pavers, you can rely on our industry-leading hardscape protectors to ensure the long-lasting beauty and superior longevity of outdoor living areas. Seal with confidence with a proven line of multi-surface protectors. Techniseal offers a complete line of paver protectors for the maintenance and rejuvenation of hardscape surfaces. From concrete pavers to natural stone, Techniseal has a proven solution that will ensure the timeless beauty of gracious outdoor living spaces. Our product line offers more versatility with its "all-in-one" sealers and joint stabilizers. Techniseal Paver Protectors are available in a choice of 4 looks and finishes: Natural Look, Satin Look, Colour Boost and Wet Look.

ADHESIVES

Structure Bond™ is an innovative super-strength foam adhesive that bonds a wide range of construction materials such as concrete, stone, brick, wood, metal, as well as composite materials. Made from high-quality modified polyurethanes, it's adhesive strength is unmatched among all types of polyurethane adhesives. Application time is up to 50% faster than with conventional tube adhesives. Materials are bonded in just 8 minutes, and the adhesive fully cures within 24 hours.

Structure Bond™ PU PASTE Polyurethane Adhesive is a high-solid polyurethane that cures by reaction with atmospheric moisture. The drying time is related to the available moisture in the immediate environment. This one-component premium polyurethane adhesive is professional grade. Permanently bonds nearly any material, such as stone, brick, concrete, wood, or metal and adheres to extreme surfaces. Structure Bond™ PU PASTE Polyurethane Adhesive also adheres strongly and resists multiple weather conditions.

STRUCTURE BOND

FOAM ADHESIVE

- Super-strength hardscape foam adhesive
- Developed for the construction industry
- Precise delivery - No mess, no waste
- Adjustable bead size
- Works on wet and cold surfaces
- High-yield content

24 oz. 60050798

STRUCTURE BOND™ GUN

- Gives added precision
- Specifically made for use with Structure Bond products
- Allows for a cleaner application with minimal dripping
- Combines light weight with strong durability
- Built to minimize waste and facilitate the application
- No user fatigue

60050802

STRUCTURE BOND™ CLEANER

- Specifically designed to fit Structure Bond™ Gun
- Makes the removal of foam adhesive spillage on any solvent-resistant surface easier than ever before
- A powerful and innovative cleaning solution to get rid of non-cured foam adhesive

14 oz. 142000091

STRUCTURE BOND™ PU PASTE

POLYURETHANE ADHESIVE

- Smooth extrusion for easy, user-friendly dispensing
- Long open time offers flexibility in repositioning
- High-strength - Up to 3 times the strength of conventional adhesive
- Permanent bond in 24 hours
- Fast curing for a quicker adhesion
- Low odor, VOC compliant

29 oz. 142000048

STICKYSTONE™ VERTICAL HARDSCAPE ADHESIVE is a **versatile quick-tack adhesive** for manufactured stone, natural stone, outdoor porcelain tile, and a variety of substrates. Ideal for hardscape applications such as: outdoor kitchens, fireplaces, firepits, columns, mailboxes, doghouses, etc. Now available in 10 oz. tube format.

Techniseal® RG+ Landscape Adhesive is an elastomeric resin-based compound specially formulated to construct concrete hardscapes. It provides a strong bond and resists the elements (water, frost, etc.), making it ideal for use in all weather conditions. Its professional strength formula will bond to the most common building materials used in landscaping. Remaining flexible under cold temperatures, it is ideal for constructing retaining walls or repairing loose brick & stone. It is most effective on dry surfaces and can also be used on wet or frozen surfaces.

RG+

LANDSCAPE ADHESIVE - VERSATILE - FLEXIBLE

- Ultra-adherent on dry, wet or frozen surfaces
- Low VOC formula
- Elastomeric resin-based compound – remains flexible
- Ideal for the construction of retaining walls

10 fl.oz. 60050381
28 fl.oz. 60050541

STICKYSTONE™

VERTICAL HARDSCAPE ADHESIVE

- Superior initial grab strength; resists sagging
- Applies easily with applicator gun
- Resists UV and weathering effects
- Solvent-free, low odor, low VOC
- Single-component adhesive

20 oz. 60050572

STICKYSTONE™ GUN

- Professional quality
- Efficient 12:1 Drive ratio
- Lightweight aluminum barrel
- Double grip plates for long life
- Converts to 10 oz (300 ml) cartridge or 20 oz (600 ml) sausage

60050571

STICKYSTONE™ TUBE

VERTICAL HARDSCAPE ADHESIVE

- Superior initial grab strength; resists sagging
- Applies easily with caulking gun
- Resists UV and weathering effects
- Solvent-free, low odor, low VOC
- Single-component adhesive

10 oz. 60050283

ACCESSORIES

Techniseal has all the essentials hardscape industry professionals require to constantly deliver high-end results all the while maximizing the time and effort they spend on the field. Whether you are specialized in the installation, maintenance or protection of outdoor surfaces, we've got you covered with a wide array of tools and accessories that will make your everyday business more profitable.

EDGE BOND™ is a polymer-modified hardscape concrete edging formula. NextGel™ is a revolutionary technology that radically transforms and improves the properties and behaviour of jointing products and additives. Powered by the innovative NextGel™ technology, it allows for the fastest and easiest installation on the market.

EDGE BOND™

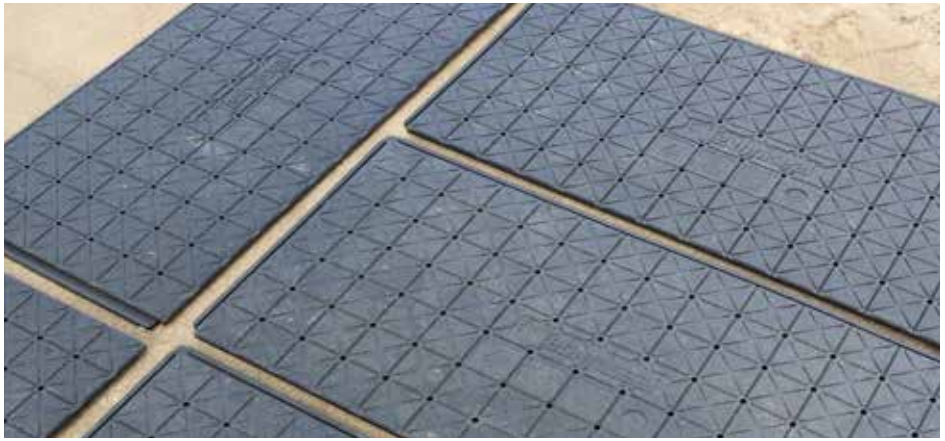
NEXTGEL FORTIFIED HARDSCAPE EDGING

- FASTEST & EASIEST installation on the market
- More than 10% extra coverage
- Ideal for permeable installations
- Smooth, uniform finish
- Maximum workability
- Dispersible reinforcement fibers

50 lb. 70975209

NEXTBASE™

Imagine a patio or a walkway that installs with less work, less expense and with no special tools or materials. NextBase™ is the new generation of high-density panel base system that replaces traditional compacted aggregate-base installations. It provides great stability to hardscape installations while reducing the required excavation. NextBase panels are easy to cut and feature drainage holes, slopes and channels for water control and an interlocking system for added stability.



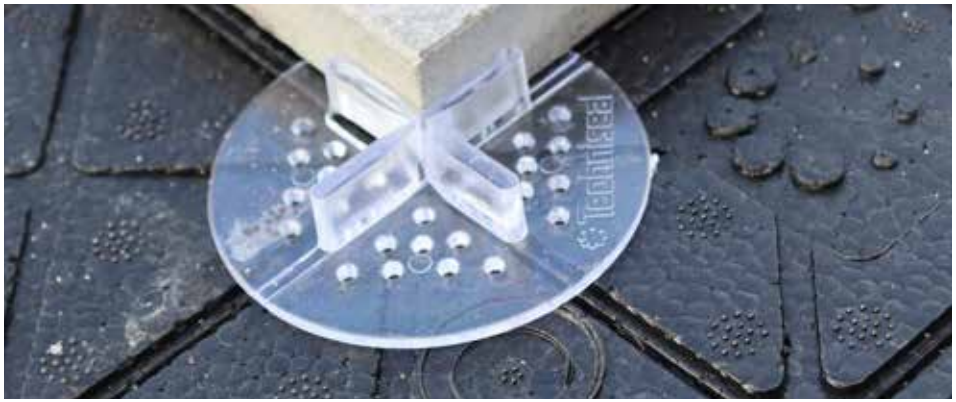
Safe to use - no utility knife required to cut panels to required dimensions. Just SNAP IT!

NEXT BASE™

PANEL BASE SYSTEM

- Each panel replaces up to 300 lb. of base aggregates
- Interlocking system
- Panels can be rotated 90° angle
- Integrated cutting marks every 3”
- Easy & fast to install
- Saves up to 8 inches of excavation
- Durable - will not degrade in the ground
- Improved water drainage capacity
- 21 3/4” X 42 3/4”

70971011



PLASTIC TILE SPACERS

- 0,39" height ensures a deep, stable corner joint filled with more jointing material
- Guarantees even spaces between tiles
- Saves time & effort on installation
- 2,5" diameter
- Spacing width: 5/32"
- Ideal for use over NEXTBASE™ foam panels

70975916

LOW PROFILE ALUMINIUM EDGING

- Discreet - A low profile design that conceals the edging for a crisp installation.
- Weather-resistant - Won't deteriorate from exposure to the sun, frost, etc.
- Flexible - Easy to bend by hand into any curve or create 90° angles without cutting.
- Versatile - Ideal for the installation of pavers, flagstones, bluestones, granite, porcelain pavers and more.
- Each section is 8' 4" long and 5/8" tall.
- Made of 6063 aluminium alloy with T-5 hardness.
- Resists rust

70973071

8-FOOT PAVER EDGING

- Easy snap connection
- Can easily be cut on the ground
- Convenient and easy to use
- Heavy duty injection molded
- Made from 100% recycled material
- 1 5/8" high

70971148

RUBBER TILE SPACERS

- Noise reduction properties
- Ideal for porcelain tiles
- Provides added stability
- Guarantees even space between tiles
- Built with high-quality material
- Saves time & effort on installation
- 3" diameter
- Spacing width: 3/16"
- Ideal for use over NEXTBASE™ foam panels

70971151

PAVER EDGING NAILS

- Heavy-duty 10" nails
- Perfect for use with Techniseal® hardscape edgings

70971150

GrassMate™ & GrassMate™ PREMIUM

Techniseal's solution for artificial turf and topdressing of golf courses. Techniseal® GrassMate™ PREMIUM consists of acrylic-coated high purity industrial quartz sand that can be used primarily as infill sand for synthetic turf. It is a high quality product that offers the following properties and associated benefits: • Its special coating using Ultra-Fresh® antimicrobial product protection inhibits the growth of mold, mildew, and stain & odor causing bacteria. Products enhanced with Ultra-Fresh® antimicrobial product protection stay cleaner, fresher, and more durable for longer.*

It is the perfect infill sand for synthetic turf that will support and allow grass blades to stand upright while improving drainage. It acts as a ballast that will help weigh down the artificial grass to prevent unaesthetic wrinkles/ripples while extending the turf's service life.

GrassMate™ PREMIUM
- Proven safe and effective, pet and kid friendly
- Available in #16 and #30 grades; green color

GrassMate™
- Available in #16 and #30 grades; green and natural colors
